## Education

GOVT. Graduate College
Samanabad FSD

Faisalabad, Punjab

ICS: Computer Science

09/2026

## Summary

I'm a passionate Full Stack Web & Mobile App Developer skilled in crafting responsive, high-performance applications using React, Next.js, Node.js, and Firebase for scalable backend solutions. Experienced in mobile app development with React Native & Expo Go, and bringing interfaces to life with animations using Framer Motion, Motion.dev, GSAP, and immersive 3D experiences with React Three Fiber. Always exploring new technologies to deliver modern, visually polished, and smooth digital experiences.

## Projects

As an aspiring **Frontend & Full-Stack Developer**, I have built several projects as part of my academic assignments and self-learning journey. Although I do not yet have professional job experience, these projects reflect my ability to design, develop, and deploy functional applications using modern web technologies.

My work demonstrates skills in **React, Next.js, Node.js, Express.js, Firebase, Redux Toolkit, Tailwind CSS, GSAP, Framer Motion, and React Three Fiber**, with a strong focus on creating **responsive, visually polished, and interactive user experiences**.
